Rupganj, Narayanganj, Bangladesh

Feb. 2022 – Current

TECHNICAL SKILLS

Languages: JavaScript, Python, C, HTML/CSS

Frameworks: React, NextJs, Node.js, Express.js, Tailwind, Material-UI

Database: MongoDB, MySQL

Developer Tools: Git, PostMan, Firebase

PROJECTS

GUB_IDPC_2025 | *NextJs, Expressjs, MySql*

The GUB IDPC 2025 website is the official platform for the Inter Department Programming Contest at Green University of Bangladesh. Built with Next.js and Tailwind CSS, it offers event details, registration, and smooth, responsive navigation for all devices.

Round Trip | *TypeScript, Expressjs, MongoDB, Firebase*

Round Trip is a travel website built with TypeScript, MongoDB, Express.js, and Firebase Authentication. It allows users to plan and book trips with a user-friendly interface, scalable backend, and secure authentication.

Personal Portfolio | *TypeScript, MySql, Expressjs*

This is my personal portfolio website built with Next.js and Tailwind CSS, showcasing my skills, projects, and experience as a full-stack developer. It features a clean, responsive design with dark/light mode, smooth animations, and easy navigation, including live project previews, GitHub links, and contact info.

EXPERIENCE

EXECUTIVE OFFICER

Feb 2023 – July 2023

SNS COMMUNICATION

Narayanganj, Bangladesh

Worked part-time as an Executive Officer, managing administrative tasks, customer accounts, and addressing web software issues during a 6-hour shift. Responsibilities included handling customer inquiries, overseeing billing and documentation, collaborating with technical teams to resolve service issues, and supporting the development and maintenance of web-based software solutions.
