PROJECTS

GUB_IDPC_2025 | *NextJs, Expressjs, MySql*   ⌂ 🌐

- Built the official website for GUB IDPC 2025, Green University's Inter Department Programming Contest
- Designed a responsive UI with Next.js and Tailwind CSS for all device sizes
- Added a student registration system for smooth participant onboarding
- Improved performance with lazy loading, responsiveness, and clean HTML
- Deployed to a live server for public access and real-time updates

Round Trip | *TypeScript, Expressjs, MongoDb, Firebase*   ⌂

- Developed "Round Trip", a travel site for trip planning and booking
- Used TypeScript for scalable, maintainable, and type-safe code
- Stored data like bookings and itineraries using MongoDB
- Handled server-side logic with Express.js for smooth operations
- Secured user login with Firebase Authentication
- Designed a clean and accessible UI for better user experience

Personal Portfolio | *TypeScript, MySql, Expressjs*   ⌂ 🌐

- Created a portfolio site to showcase my skills, projects, and experience
- Built with Next.js and Tailwind CSS for a responsive and modern design
- Added smooth animations to improve user interaction and flow
- Included project previews and GitHub links for easy code access
- Integrated contact details and socials for professional outreach

EXPERIENCE

EXECUTIVE OFFICER   Feb 2023 – July 2023
SNS COMMUNICATION   *Narayanganj, Bangladesh*

Worked part-time as an Executive Officer, managing administrative tasks, customer accounts, and addressing web software issues during a 6-hour shift. Responsibilities included handling customer inquiries, overseeing billing and documentation, collaborating with technical teams to resolve service issues, and supporting the development and maintenance of web-based software solutions.
